Professional Summary

Business Analyst with **2 years of experience** delivering ERP, automation, and analytics solutions across **manufacturing, logistics, distribution, SaaS, and healthcare** domains. Reduced reporting time by **40%**, supported **10+ ERP implementations** for 200+ users, and automated KPI pipelines saving **8+ hours/week**. Skilled in requirements gathering (BRD/SRS), UAT, SQL, process mapping, and Agile delivery. Recognized by **Aspire Institute / Harvard Business School** and **McKinsey & Company**.

Core Skills

Business Analysis: BRD, SRS, FRS, Use Cases, User Stories, Acceptance Criteria, Process Mapping, Gap Analysis, UAT & Defect Management

Domain Knowledge: ERP & CRM Systems, Procurement & Inventory, Order Fulfillment, Fleet & Logistics, Manufacturing Operations, SaaS Products

Tools & Technology: SQL, Python, Power BI, Advanced Excel, BigQuery, Jira, Confluence, draw.io, Visio

Delivery: Agile/Scrum, Sprint Planning, Stakeholder Management, Cross-functional Collaboration

Professional Experience

Business Analyst & AI Solutions Lead

Feb 2026 – Present

Codes Technology, Surat, India

- Lead a team of 4 delivering ERP, automation, and analytics solutions for manufacturing, logistics, and distribution clients across India, USA, Canada, and UAE.
- Authored **30+ BRD/SRS documents**, user stories with acceptance criteria, and process-flow diagrams (draw.io/Visio) for client engagements spanning **4 countries**; serve as primary liaison between business stakeholders and engineering/QA teams through the full SDLC.
- Designed automated KPI reporting workflows integrating AI tools with CRM and ERP systems, eliminating **8+ hrs/week** of manual data entry for operations teams.
- Support UAT: prepare test cases and validate outputs against acceptance criteria; managed a **95%+ defect closure rate** within sprint cycles.

Business Analyst & Business Development Executive

Oct 2024 – Feb 2026

Codes Technology, Surat, India

- Owned requirements engineering for **10+ ERP projects** (200+ end users) covering procurement, inventory, order management, and production planning for manufacturing and logistics clients.
- Engaged **25+ clients** across manufacturing, logistics, and SaaS; mapped as-is to to-be processes using gap analysis and process flows, reducing re-work by **30%**.
- Built SQL-based reports and Power BI dashboards for inventory, order fulfillment, and supplier KPIs, reducing manual reporting time by **40%** for operations managers.
- Facilitated Agile ceremonies and maintained Jira sprint boards across cross-functional teams, improving on-time delivery rate to **85%**.

Key Projects

- Fleet Management System** (*Logistics, North America*) — Led requirements engineering for a real-time fleet tracking platform with ELD compliance and driver monitoring; authored user stories, process flows, and wireframes, **reducing scope ambiguity by 35%**.
- Manufacturing ERP** (*Textile Co.*) — Served as lead BA for an end-to-end ERP covering production planning, procurement, inventory, and supplier management; produced BRD, SRS, and data-flow diagrams for a **150-user rollout**.
- Channel Management ERP** (*Distribution Org.*) — Elicited requirements for a distribution and order-fulfillment ERP: mapped order processing, inventory allocation, warehouse dispatch, and reporting; authored use cases and acceptance criteria.
- Trust Management System** (*Multi-tenant Platform*) — Drove requirements discovery for a **multi-tenant** system managing donations, stay/accommodation bookings, ticketing, and reports across multiple trusts; defined role-based access, tenant-level data segregation, use cases, and acceptance criteria.
- Lab Management System** — Scoped sample intake, scheduling, result logging, and compliance reporting modules; delivered SRS and process maps within a **2-week requirements sprint**.

Education

Bachelor of Computer Applications (BCA), Computer Science

Jun 2022 – Feb 2025

Veer Narmad South Gujarat University, Surat, India

CGPA: **8.54 / 10.0**

Certifications & Honors

- Aspire Leaders Program 2025** — Aspire Institute / Harvard Business School (*1 of 6,175 finalists from 36,000+ applicants*)
- Forward Program** — McKinsey & Company (*Jul 2025*)
